🌐 taharaouf.me

Passionate about building innovative tech solutions, I'm a full-stack developer with 3 years of experience building web applications and software I specialize in front-end development with React.js and back-end development with Laravel, designing intuitive UIs and building secure, scalable APIs

## PROFESSIONAL EXPERIENCES

• 2024 - 2025

DIGITAL IT

### SOFTWARE ENGINEER

- Designed and developed scalable software solutions, applying strong knowledge of algorithms, data structures, and system design.
- Collaborated on projects using modern development practices, including version control (Git), testing, and debugging.
- Contributed to the full software development lifecycle, from requirements analysis to deployment and maintenance.

• JANUARY - JUNE 2023

WEBDSAY

### BACKEND DEVELOPER – STARTUP

- Developed and maintained backend systems using Laravel, ensuring scalability and performance.
- Designed and optimized databases, improving query efficiency and data management.
- Built and integrated RESTful APIs to support front-end applications and external services.
- Worked in a fast-paced startup environment, handling debugging, feature implementation, and continuous improvements.

• JUNE 2022

EVIOSYS

### FINAL YEAR INTERNSHIP (PFE) – WEB DEVELOPMENT

- Designed and developed a full-stack web application using Laravel and React.
- Built and managed the database, and integrated APIs to ensure smooth application functionality.
- Implemented core features including authentication, user management, and CRUD operations.
- Optimized performance and improved user experience (UI/UX).

## EDUCATIONAL PATHWAY

• 2024 - 2026

Um6p | 1337 coding school

### SOFTWARE ENGINEERING STUDENT

- Built a strong foundation in software engineering principles, including algorithms, data structures, and object-oriented programming.
- Participated in academic and personal projects, applying problem-solving skills, debugging techniques, and best practices in code versioning (Git) and collaboration.

• 2022 - 2024

ISTA CASA

### TS IN FULL-STACK WEB DEVELOPMENT

- Developed full-stack web applications using modern technologies (Laravel, React), including database design, API integration, and user authentication systems.
- Acquired strong skills in front-end and back-end development, focusing on responsive UI design, performance optimization, and clean, maintainable code.

• 2021 - 2022

Groupe scolaire Mhamed Bennis

### HIGH SCHOOL DIPLOMA

- Baccalauréat BIOF
- Specialization in Physics

## LANGUAGES

French  
English  
Spanish

## CERTIFICATIONS

### CISCO NETWORKING

Python certification obtained through Cisco, covering the basics of programming, data manipulation

### CISCO NETWORKING

Cybersecurity certification obtained through Cisco, including skills in risk management.
